

Year 6

Spring 2 Newsletter

This half term our topic is 'Frozen Kingdom'.

Frozen Kingdom

This half term the children will be continuing with their Frozen Kingdom topic and completing tasks which are child led through the use of 'floor books'. They will be using their skills to find out information about animals that live in cold climates and the effects of climate change. They will be presenting their findings using a choice of different media. Linked to this topic, will be a sequence of science lessons looking at adaptations and habitats.

English

Real all about it! In English we will be travelling back in time to the day that the Titanic sank. We will become real life reporters and write newspaper reports based on the tragic events of that day.

You can support your children at home by encouraging them to read newspaper articles.

Fund Raising

Over the forthcoming months the children will be participating in some fund raising events in order to raise money towards Y6 leavers' celebrations. A big part of this will be providing each child with a leaver's sweatshirt. This will be a lovely memento of their time at Park End Primary.

Mathematics

Children will be encouraged to use a range of strategies in order to solve problems. They will also be exploring shape, space and measure.

We will be working on SATs questions and developing methods to help children answer different question types.

Please encourage your child to practise their times tables and division facts.

SATs

8th May - 11th May

Year six is an important year for your child as they will be working hard in preparation for the SATs. Please continue to support your child with their reading and homework activities.

This half term's homework will be activities linked to SATs revision.

Revision guides will be made available to all children before the Easter half term holiday. Additional revision activities will be sent home during the holiday.
